

The Crossings

The Crossings at Alliance Health Center, an adolescent residential treatment center, provides treatment programs for males and females ages 12 to 17 and for juvenile male sex offenders ages 12 to 17, all of whom are experiencing mental illness and/or severe behavioral problems.

Premier programs

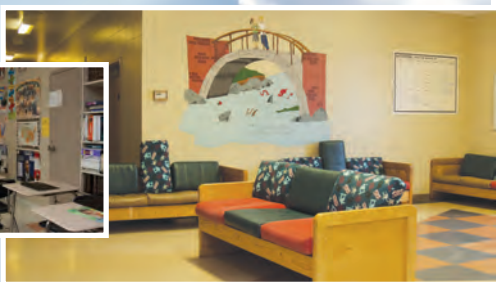

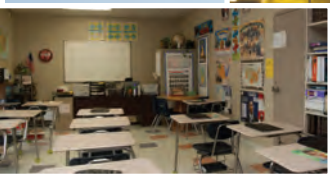

The gender-specific programs at The Crossings are geared to help each patient focus on recovery. Therapists are located in each of the three units and nursing staff is on site 24 hours a day. Group therapy is provided on a daily basis and, if ordered by the physician, individual therapy.

Average length of stay

While this varies for each individual and in each program, the average length of stay in the Behavioral/Mental Illness Unit is usually three to six months. The average length of stay in the male Sexual Misconduct Program is usually six to eight months.

Education matters

The Crossings operates a fully accredited school — **The Crossroads** — and students attend classes seven hours per day. GED prep courses and special education courses are also offered.
